

2021-2022 Council Contacts

Everett PTSA Council 7.3

Council Contacts are Council members who have offered to serve as an additional point-of-contact to one or more of our 27 local PTAs in the Everett School District. The purpose is to help connect Everett PTSA Council to each local PTA by providing more personalized assistance and support. As your Council Contact, these PTA leaders will be checking in with you from time to time, just to make sure that your year is going well. As a reminder, there is no PTA-police! Council leaders only serve as support to your PTA officers. You are always also welcome to contact any member of our Council Board of Directors for position-specific questions or issues. See www.EverettPTSACouncil.org for our Board contact info.
